Capstone Project:

Create a Chat bot using Amazon Lex Tool.

Intent of the chat bot:Book Hotel

1)All the information must be conveyed to the user after booking room and must be informed to the user the price of the hotel room and day of stay .

2)Using this chat bot user must aware of types of Available rooms (Claasic,Duplex etc)-Choose your own Category as well.

3)All events must be in flow for fulfilment of the intent .
